

<b>Unpacker Release Note</b>	<b>Release v3.12</b>	<b>May 16, 2017</b>
------------------------------	----------------------	---------------------

**Summary of Unpacker Release v3.12:** Unpacker Release v3.12 unpacks data files for profiler firmware version 5.00 and higher. Unpacker is backwards compatible to all profiler firmware releases to v3.01.

I. New functionality	Supports unpacking files for the Wetlabs Sea Owl sensor.
II. Changed display	Corrected heading labels on Unpacker log file output.

**I. New functionality:** Unpacker Release v3.12 unpacks data files for the Sea Owl sensor. Wetlabs Sea Owl must be selected under the Files to Unpack to unpack the Sea Owl ‘W’.DAT files collected with each profile.
