

Alert Level: **CRITICAL**

Instruments: MMP and ITP

Software Versions: N/A

Hardware Version: Sea-Bird 52MP CTD with 43F DOX on the MMP and Sea-Bird 41CP IDO on the ITP

Subject: Do Not Expose Sea-Bird 43F and 41CP IDO CTD Sensors to Freezing Temperatures

Summary: Exposure to temperatures below freezing can damage the Sea-Bird 43F DOX and 41CP IDO sensors.

Technical Details: Sea-Bird Electronics advises that exposure to temperatures below freezing can critically damage the Sea-Bird 52MP CTD with 43F Dissolved Oxygen sensor and the Sea-Bird 41CP Integrated Dissolved Oxygen sensor. Protect these sensors from exposure to freezing temperatures during shipment, deployment, recovery and storage.
